

Big Boys Night Out !

Tour 2009

'An epic revue to save the economy!'

Recession you say? Here is New Zealand's answer to President Obama's trillion dollar recovery package.

A massive two hour entertainment showcase touring the country to a town near you. The very best of the pro standup comedy tour and ridiculously beautiful women removing their clothes in a high energy dance show.

The girls.... Not the comedians.

Like sheep, men are an important part of the economy. When exposed to laughter and bare breasts their productivity increases. Our economy grows strong. So book your man a ticket now and do your part for the nation.

Strippers also wear very little clothing at the best of times. Less fabric means less carbon footprint. So booking a ticket is helping the environment as well. Keeping our proud land beautiful. If you don't book a ticket it's like stomping on a Tuatara.

So be green, be a patriot and join us for a great night out.

Big funny. Big sexy. Big Boys Night Out.
